RokIntroScroller is a mootools based module that scrolls your articles in a horizontal manner. The module works by loading articles from designated categories/sections inside the styled, javascript effect.

RokIntroScroller can be downloaded along with the other bundled extensions in the **infuse-extensions-j15.zip** archive

Below is a screenshot of the parameters that are available for RokIntroScroller and are the settings chosen for this demo:-

The screenshot shows a 'Parameters' window for the RokIntroScroller module. It contains the following settings:

- Module Class Suffix: (empty text field)
- Show Article Title: No Yes
- Link Article Title: No Yes
- Frontpage Items: Show Hide Only Frontpage Items
- Count: 14
- Item Ordering: Default
- Category: RokIntroScroller/RokIntroScroller
- Section: - Select Section -
- Show Read More: No Yes
- Read More Label: Read More
- Transition Duration: 800
- Items per Click: 7
- Preview Length: 300
- Arrows Opacity: 0.85

At the bottom, there is a link for 'Advanced Parameters'.

Below is an example of the code used for the demo, for the content articles:-

```
<div class="scroll-img">  </div>
```
